

What This Country Needs

AR-107

Called by
Vernon Jones

OPENER - MIDDLE BREAK - CLOSER

Heads face, grand square

What this country needs is a little more steel guitar

And put a little fiddle right in the middle

Straight out of a Texas bar

Four ladies promenade you gotta roll it once around that ring

Swing and we'll all promenade

Yes, and be proud of it and always love it

That's what this country needs

FIGURE

Sides flutter wheel, heads swing your girl

Sides join hands and circle 3/4 round

You gotta veer left, veer right, to a left swing thru

And the girls run left, tag the line, face right

Couples circulate, chain down the line and we'll all promenade

Yes, there'd be a lot of changes if it was left up to me

TAG

You gotta be proud of it and always love it

That's what this country needs
