

Jump Shout Boogie Around

RR-1011

Called by
Randy Dougherty

OPENER

Circle left

A long time ago in 1944

When every Mother's son was going off to war

Walk around that corner lady, seesaw your taw

Left allemande and weave that hall

Well, now you jump, shout, knock yourself out

You swing your honey, promenade back home

If you get the heebie-geebies you can dance them away

To the boogie woogie beat that piano man played

FIGURE

Heads (sides) flutter wheel

Sides promenade 1/4

A double pass thru, a cloverleaf

And now the centers star thru, you back away

4 ladies chain 3/4 around I say

And now the sides face, grand square 8 steps

You swing your corner lady, you promenade

If you pull a switch-a-roony you could feel low down

To the boogie woogie beat that piano man played

MIDDLE BREAK

Circle left

Don't you think we should get our spirits up high

For Uncle Sam and Mother's good ole apple pie

Walk around that corner lady, seesaw your taw

Left allemande and weave that hall

Well, now you jump, shout, knock yourself out

You swing your honey, promenade back home

If you get the heebie-geebies you can dance them away

To the boogie woogie beat that piano man played

CLOSER

Circle left

It has a kind of rhythm that will fit the hall

It will make the man up front think it drives you up a wall

Walk around that corner lady, seesaw your taw

Left allemande and weave that hall

Well, now you jump, shout, knock yourself out

You swing your honey, promenade back home

If you get the heebie-geebies you can dance them away

To the boogie woogie beat that piano man played

TAG

Swing her now

I said that boogie woogie beat is what I'm talking about
