Circle left

I've got a never ending love for you
From now on, that's all I want to do
Do an allemande left with the corner, dosado around your own
Allemande left with the corner, weave the ring
Wind in and out around the ring and go
When you meet a little lady, swing that lady and promenade
And from the first time we met, I knew
I had a never ending lover for you

FIGURE (1)

Well those heads promenade and go halfway
Walk into the middle and square thru 4 hands around go
Go all the way and do the right & left thru you know
Veer over to the left, you ferris wheel around and then
Centers pass the ocean there, explode that wave and then
Corner swing, swing the lady around and promenade
And from the first time we met, I knew
I had a never ending lover for you

FIGURE (2)

Well those heads promenade and go halfway
Walk into the middle and square thru 4 hands around go
Go all the way and then, swing thru you know
Men run to the right, you ferris wheel around and then
Centers walk & dodge, swing your corner, promenade
And from the first time we met, I knew
I had a never ending lover for you
