

Country Side

DR-1032

Called by
Troy Ray

OPENER - MIDDLE BREAK - CLOSER

Sides face grand square

*Up in the city where the ladies are pretty

And they really got a lot of charm

I must admit, I wouldn't mind it a bit

To be a light in her lovin' arms

Four ladies chain, turn that girl

You chain 'em back, roll promenade 'em on home

Because a woman to me has just gotta be

A little on the country side

ALTERNATE LYRICS

*She took a chance on a little romance

With a fellow who was city slick

She felt like a queen in his big black limousine

But it didn't do the trick

*Country side, country side, it's the finest side of life

She's gonna give her hand to a country man

And I'm gonna take a country wife

We'll spend our days where the cattle graze

In a cottage by the country side

FIGURE

Heads promenade halfway and then square thru and go

Why don't you spin chain thru, girls circulate 2

Well now the boy run right, tag your line

Lady go left, men go right, swing and promenade

A woman to me has just gotta be

A little on the country side

TAG

She said she needed a man with some dirt on his hands

And a little on the country side
