

Then The World Will Know

GMP-122

Called by
Doug Bennett

OPENER - MIDDLE BREAK - CLOSER

Circle left

I can't believe it's taken me so long

To find someone that I can call my own

Walk around your corner lady, gonna see saw round your own

Allemande that corner and weave the ring

Just let me put my arms around you and we'll dance across the floor

And I will feel your heart beat stronger than before

Swing, promenade

And I'll know that you feel the way I do

Then the world will know I'm so in love with you

FIGURE

Head couples square thru well its 4 hands round you fly

And with the outside pair go right & left thru

Swing thru and then spin the top for me

Boys move up and then recycle too

Come on and reverse flutter wheel across and sweep 1/4 more

All veer right and promenade that lady round the floor

And I'll know that you feel the way I do

Then the world will know I'm so in love with you
