

## **Baby Blue**

GMP-124

Called by  
Doug Bennett

### **OPENER - MIDDLE BREAK - CLOSER**

Sides face, grand square

She was so much like a lady, but so much like a child

A devil when she held me close

An angel when she smiled

Allemande and weave

She always held it deep inside but somehow I always knew

She'd go away when the grass turned green and the sky turned baby blue

### **FIGURE**

The heads promenade and go halfway

Square thru 4 hands round

Go all the way and make a right hand star

One full turn around, heads star left

Just halfway there's your corner, swing

You take her hand and promenade all right

So, here's to you and whoever holds

My baby blue tonight
