

Let Me Into Your Heart

GMP-205

Circle left

You're like a cool breeze to a hot spell

You're like a long drink to a dry well

Walk out around the corner, then you see saw your lady

Allemande left the corner and you weave the ring

Oh, I know by now 'cause I been thinkin' 'bout

There's somethin' in that water I've been drinkin'

But I would not need even one more drop

If you just let me into your heart

FIGURE

Heads promenade take her halfway around

Down the middle, square thru it's 4 hands around

All the way and do the right & left thru

Roll away a half sashay then box the gnat, hold on

Square thru 3/4 round that ring

You trade by, swing and promenade round the ring

Until the end of time for a chance to start

If you just let me into your heart
