OPENER - MIDDLE BREAK - CLOSER

Circle Left

Sailors have the seven seas, four strong winds that blow
Drifters have the next town down the road
Walk around your corner lady, see saw round your own
Left allemande and weave that ring
Flowers have the early April rain
Believers have what they have never seen
Dreamers have tomorrow if today does not come true
You have eyes that shine and I have you

FIGURE

Heads promenade your girl halfway round the ring
Down the middle and square thru you know
All the way you dosado that girl and then
Swing thru my friend, boy run
Ferris wheel, in the middle square thru and get me three
Swing that corner, promenade
Dreamers have tomorrow if today does not come true
You have eyes that shine and I have you
