

Finally Friday

GMP-309

Called by
Darryl Lipscomb

OPENER - CLOSER

Sides face grand square

I've got a hundred dollars smokin' in my billfold

I know I oughtta save it but it's burning a hole

Right through my pocket and into my skin

Come Monday morning I'll be broke again

All four ladies promenade one time around

Get back at home swing and promenade

It's finally Friday, I'm free again

I've got my motor running for a wild weekend

FIGURE

Heads star thru and do a double pass thru

Put centers in and cast off 3/4 around

Pass thru, bend the line, go forward up and back

Star thru and then let the centers pass thru

You slide thru and square thru 3/4 around

Swing that corner lady, promenade the ring

It's finally Friday, I'm outta control

Forget the workin' blues and let the good times roll

MIDDLE BREAK

Sides face grand square

Come Monday I'll be hurtin' with my head in a vice

Tuesday I'm a wonderin', if I'll ever survive

Wednesday and Thursday I will be slowly tuning in

Friday I'll be revvin' up my motor again

Four ladies promenade, swing, promenade

It's finally Friday, I'm outta control

Forget the workin' blues and let the good times roll
