

I've Never Loved Anyone More

GMP-602

Called by
Wayne Baldwin

OPENER

Circle left

It seems like I don't think about you too much
I'm not too sure why I thought of you now
Walk around the corner, seesaw your girl
Allemande that corner, and weave around the world
It hurt me to stand there just watching you leave
I couldn't believe it was true
Promenade
With moments we've share and souls we've barred
I've never loved anyone more

FIGURE

Heads/sides promenade & take her 1/2 way around
Walk in, square thru 4 hands around
All the way & then do the right & left thru for me
Veer to the left & ferris wheel around you see
Square thru & go & take 'em 3/4 round
Swing the corner girl and promenade
With moments we've shared and souls that we've barred
I've never loved anyone more

BREAK

Circle left

And like I said I don't think of you much
There's someone beside me who helps me forget
Walk around the corner, seesaw your girl
Allemande that corner, and weave around the world
It's bad that we couldn't hold onto our dreams
Dreams that were there to believe in
Promenade
With moments we've shared and souls that we've barred
I've never loved anyone more
