

There's Got To Be A Rainbow Somewhere

ESP 1133

Caller Elmer Sheffield Jr.

OPENER - CLOSER

Circle left

There's got to be rainbow somewhere

The storm's coming to an end

Men star by the right and you roll it round now

Allemande left and weave again

And when I grow a little weary

Swing your lady, promenade (or I keep my eyes upon the sky)

There got to be rainbow somewhere

I feel the storm passing by

FIGURE

All the heads (sides) square thru

4 hands around, you know

Swing thru, boys you trade, boys run

Half tag, walk & dodge

Chase to the right, corner swing now

Swing a little girl and promenade

And when I see a rainbow forming

I know the storm's passing by

MIDDLE BREAK

Circle left

There's got to be rainbow somewhere

The storm's coming to an end

Men star by the right and you roll it round now

Allemande left and weave again

Oh let me tell you that I've been there

Swing your lady, promenade (or I know you may not understand)

But when the storm around me rages

I can hold onto his hand

TAG

Swing her
